Now Available in Spanish

[HHMI BioInteractive](#)
[Spanish-language website!](#)
<http://www.hhmi.org/es/biointeractive>

It features a large collection of the BioInteractive resources you know and love, translated into Spanish and available through Spanish-language webpages and navigation. The current collection includes more than 70 resources, including short films, animations, Click & Learns and hands-on activities, and will continue to grow. The design allows users to toggle seamlessly between Spanish and English sites, providing maximum flexibility for educators to support English Learner students who speak Spanish as their home language.
